

Amara Raja Batteries clocks HIGHEST EVER QUARTERLY Revenue

» **Revenue of Rs. 1,469 crore**

» **PBT of Rs. 191 crore**

» **PAT of Rs. 130 crore**

New Delhi - August 8, 2016: Amara Raja Batteries Limited, India’s leading Industrial and Automotive Battery major (**BSE:500008 & NSE Code: AMARAJABAT**) today reported Gross sales (excluding other income) of Rs. 1,469 crore in Q1 FY16 (Rs. 1,260 crore) a 16.5% growth and Profit after Tax (PAT) of Rs.130 crore (Rs. 122 crore) a 6.8% growth.

For the quarter ended June 30, 2016

Particulars	Rs. in crore	
	Quarter ended	
	June 30, 2016	June 30, 2015
	Unaudited	Unaudited
Gross Sales	1,469	1,260
Profit Before Tax (PBT)	191	179
Profit After Tax (PAT)	130	122

The **Automotive battery business** continued to maintain the growth trend in all verticals of the business. In our preferred brands, Amaron® and PowerZone™, we grew in double digits in the aftermarket segment. The growth also helped us increase our market share further. The impressive volume growth in two-wheeler batteries in both Amaron® and PowerZone™ brands further added significantly to the performance of the business unit. During the quarter, OEM production in four-wheeler grew, thereby, aiding higher sale of batteries in the OEM sector, and our volume growth helped us to increase our market share further. Impressive growth in exports helped us to have higher utilisation of plant capacities, and providing a base for further expansion in the Indian Ocean RIM countries. We started selling tubular batteries manufactured by us during the quarter.

The Company’s **Industrial Battery business** registered double digit volume growth over Q1 of previous financial year, in a challenging & competitive market conditions. The growth in demand from telecom sector is moderate and is primarily driven by data growth and the drive for energy optimization by Tower Companies. The UPS batteries demand registered a double digit growth.

The industrial battery business improved the overall performance by virtue of its “preferred supplier status” with all major customers, efficient after sales service, customer relationship management, optimal product mix and consistent product performance of its flagship brands PowerStack®, Quanta® and QRS Series batteries.

The Company has progressively started providing total solutions to customers enabling it to forge strategic alliances.

Commenting on the Q1 performance, **Mr. Jayadev Galla, Vice Chairman & Managing Director, Amara Raja Batteries Limited** said, "The Indian economy is on the threshold of taking the leap for higher growth amidst global slowdown. Several positive growth drivers-like good monsoon, favorable government policies, lower crude oil prices, relatively stable currency etc are going to enable the company to grow further and the new race has already commenced in the first quarter of this year. During the quarter, there has been significant strengthening of all core facets of business which has enabled the organization to remain fit to face the challenges of growth effectively. The volume and revenue growth has been the highest ever. All plants are running efficiently and at decent capacity levels. Market shares for the company's business lines have begun to further increase moderately due to improved product and service quality and brand strength. Production capacities for industrial and automotive lines of business are adequately available and the company is poised for scaling new heights."

Commenting on the Q1 performance, **Mr. S V Raghavendra, Chief Financial Officer**, said, "We have adopted IND AS – the new set of accounting standards for financial reporting effective this quarter and the transition has been smooth. Consequent to the adoption of the revised standards there is no significant impact on the financial results of the Company. The operating cash flow generation remained strong driven by growth in volumes and improvement in operating and financial efficiencies. The Company continues to have sequential quarterly revenue growth and maintain healthy liquidity position. Raw material prices are moving favorably, plant capacities are ramping up as planned, employee productivity is growing, product quality is improving and we are aggressively working on further improving cost efficiencies and productivity"
